### Study Questions and Project Ideas

1. What was the most surprising thing about you learned Pakistan from this feature? How does it impact your understanding of the country?
2. In small groups, create a timeline that recounts 10 major events within Pakistan's history. How does each event contribute to the current status of the country today?
3. What relationship does your country have with Pakistan? How has that relationship changed over time and what might it look like in the future?
4. What problem does the recent political upheaval in the country present for the development prospects of Pakistan's citizens?
5. On your own, develop a list of the five main challenges that Pakistan faces today. In small groups, compare lists and generate potential local, national and international solutions to each of the major problems.
