**A Troubling Outlook for the World Economy**

By Kuni Miyake

One of Saudi Arabia’s most prominent journalists has lost sight of the formula that has driven the country’s economy. The report did not make the headlines, but it should have. The issue of Saudi Arabia’s debt crisis is not new, but the implications for the country’s future are.

The report did not make the headlines, but it should have. The issue of Saudi Arabia’s debt crisis is not new, but the implications for the country’s future are.
